

DOJO 2.0 Proposal for KML

Nisha Yadav
31st March 2025

End-to-end **AI, IoT and Automation Solutions** that deliver cost efficiency and ROI gains.

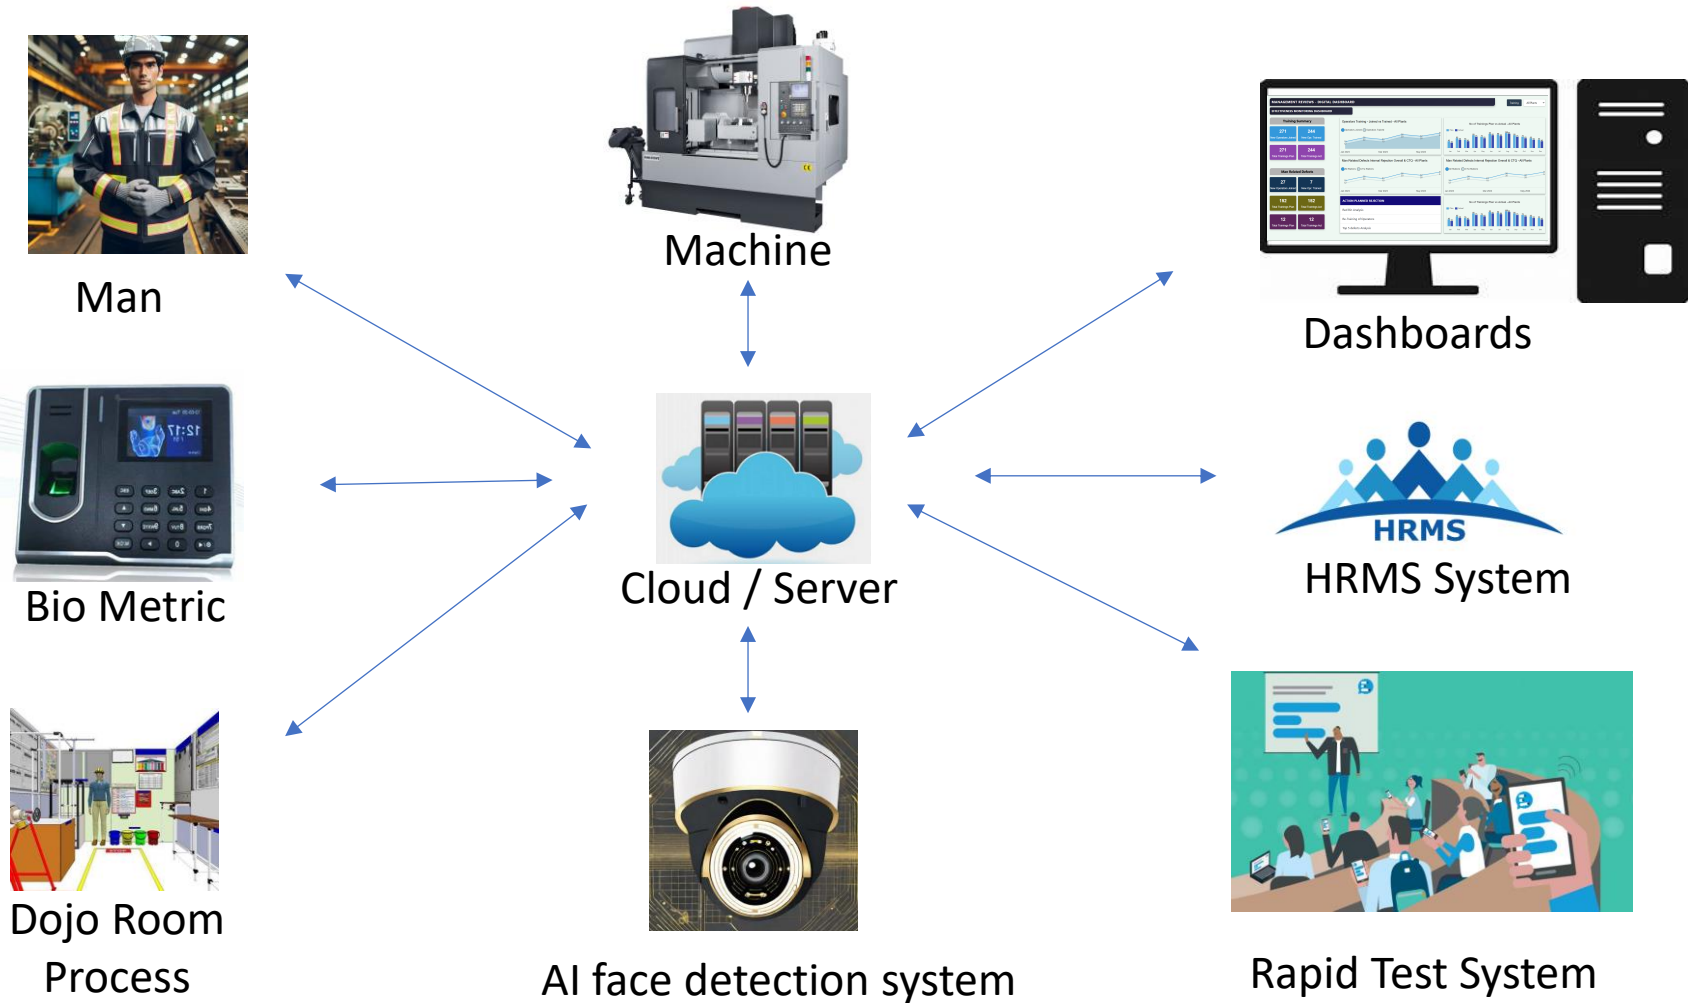

OUR PROPOSAL

NL DOJO 2.0 Solution, V Train provides single platform option for our clients to enable, Systematic Training, Skill Upgradation, Man Machine Interlinkage, Operator evaluation and Production Quality improvement.

V Train system will capture data of critical check points, with digital forms, guide operator effectively to avoid human errors, grade operators and raise criticality flags and enhance accountability.

- IoT Enabled
- AI Enabled
- 3M Approach
- AR/VR Modules
- Interactive Dashboards
- Effective Reports
- Real time Monitoring
- Digital Response Testing

DOJO 2.0 Solution Architecture

Modules Included

- Man Module
- Machine Module
- Test Module
- Training Module
- CAM Module

Dashboards Included

- Management Review
- Advance Manpower
- Skills and Level
- Process Dojo
- Machine
- Training
- Operator wise

*Images are only for reference purpose.

Key Features of V Train Solution

- ✓ AI Based Analytics and Trend Analysis
- ✓ Comprehensive Dashboards for HQ , Factories and Departments
- ✓ Realtime Visibility of Skills, Training Plans and Improvements
- ✓ IoT enabled connectivity between Man, Machine and Methods
- ✓ Systematic Training and Realtime improvements
- ✓ Integration with AI Camera, Biometric System, Machines and Tools
- ✓ Realtime Alerts & Notifications
- ✓ Defect classifications and improvement plans
